

Shurtape

MASKING TAPES

CP 66

Contractor Grade Masking Tape

Designed for commercial and residential painting and construction, industrial masking, holding and packaging. Good for applications where conformity to irregularly shaped surfaces and good quick stick are needed.

CP 106

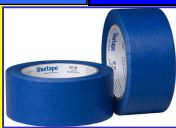

Contractor Grade Masking Tape

Designed for general purpose use in packaging, bundling and labeling. Offers a patented thermoplastic adhesive that allows a 100% surface contact area to the substrate with enhanced removal properties.

CP 27

Blue 14-day Low Adhesion Masking Tape

14 Day ShurRELEASE™ removes cleanly from painted walls, trim, woodwork, glass and metal for up to 14 days without damage even when exposed to direct or indirect sunlight.

CP 450

Performance Grade Masking Tape

Engineered utilizing a smooth crepe backing combined with a moderate temperature rubber adhesive system. Exhibits a smooth, consistent unwind which delivers a user-friendly product during application. Ideally suited for demanding masking applications in the transportation, marine and metal fabrication industries.
